Boulder, CO | benjamin.cotton@colorado.edu | 720-212-8379 | http://www.linkedin.com/in/benjamin-g-cotton/

## EXECUTIVE SUMMARY

Energetic and outgoing student skilled in leadership, organization, and communication. Combines a data-driven mindset with a passion for sports and active teamwork to deliver clear insights and measurable results.

## EDUCATION

Bachelor of Science Information Science | Minor: Sports Media | University of Colorado Boulder
Expected Graduation: 2027
**Relevant Courses:** Data Science Foundations, Human-Centered Design, Information Visualization, Python Programming

## PROJECTS

**NBA Shot Selection Trends Analysis**

- Analyzed NBA player and team shooting data from 2010–2024 using Python APIs.
- Examined changes in 3-point attempt rates and efficiency across positions and teams.
- Created data visualizations to illustrate how league strategy evolved toward perimeter-focused play.

**NBA Team Stats Dashboard (Power BI)**

- Built a three-page interactive Power BI dashboard analyzing NBA team performance and shooting trends from a ~146,000-row dataset spanning 2003–2026.
- Modeled and cleaned data in Power Query, resolving duplicate records and relationship errors, then built DAX measures to fix aggregation logic.
- Designed a reusable dashboard layout with slicers, KPI cards, and chart grids, using it to identify the 2015 Golden State Warriors as the best blend of 3-point volume and efficiency.

**Strava Simplified — UX/UI Redesign**

- Conducted user research and competitive analysis to identify navigation friction and interface clutter in Strava's existing mobile app
- Designed wireframes and iterated on interactive prototypes through rounds of user feedback, decluttering the UI while preserving core tracking features.
- Delivered "Strava Simplified," a redesigned navigation structure demonstrating the full UX/UI process from research through prototyping and usability testing.

## EXPERIENCE

**Assistant Store Manager** – Cold Stone Creamery, Denver, CO — May 2021 – Present

- Supervise daily operations and staff across five store locations.
- Implement training programs to improve service quality and team performance.
- Coordinate inventory and product distribution to ensure smooth multi-store operations.

**Low Voltage Technician –** 5280 Electrical Solutions LLC, Denver, CO — May 2022 – Jul 2023

- Installed and serviced low-voltage systems for commercial projects.
- Interpreted technical drawings to ensure accuracy and safety.
- Collaborated with project teams to meet deadlines and quality standards.

## SKILLS

- **Technical:** Python, pandas, Excel, Data Visualization, Electrical Systems
- **Professional:** Leadership, Team Management, Budgeting, Event Planning, Stakeholder Management

## LEADERSHIP AND COMMUNITY INVOLVEMENT

**Treasurer & President, CU Snowboarding Team** – University of Colorado Boulder — May 2024 – Present

- Directed a 120+ member organization, managing logistics, events, and financial planning.
- Administered a $45,000 annual budget supporting travel, gear, and competition expenses.
- Forged partnerships and sponsorships with companies to fund team operations.
- Liaised with CU Boulder Athletics to maintain compliance and expand opportunities.
